

INTIMA

Primal Wisdom

"Intima brings together artists with mutual respect and a shared vision."

Gregory Dawson, Choreographer

US Premiere May 8, 9 | 8:00 pm | Z Space | 450 Florida Street | San Francisco

Intima is a fusion of visual art, dance, and music that investigates themes of self-discovery, conflict, loss and resolution.

"Exploring the relationship between man, space, and death has always been a focus of my work. Intima enhances this exploration by incorporating the physical body at every step. Movement is an ever-present feature of the total performance, giving the visual display a unique dynamism."

Ali Kaaf, Visual Artist

"For me, Intima addressed many questions especially now as my native homeland of Syria struggles. Intima is now part of my creative arc, part of my humanity."
